

ConnectiX Europe

Let's shape the future together.

CONNECTiX

STRATEGY, SALES & MARKETING

"We Combine Experience and
Trust With **Strategy and Sales**."

◆ In-depth Industry Knowledge

We possess strong expertise in end-to-end sales, marketing, and implementation processes for software projects targeting municipalities, water and sewage authorities, and public institutions.

◆ Strong Communication and Representation

ConnectiX's management team fosters effective communication with public institutions, possesses strong representation, and presents a results-oriented work culture in large-scale projects.

◆ Strategic Approach and Correct Positioning

We position our partners' solutions in the field for the right institutions using the right methods; we provide support at every stage, from pre-sales to contracting, implementation, and sustainability.

◆ Win-Win Model

We view the growth of our business partners as part of our own success; we adopt a transparent, sustainable, and long-term business model focused on mutual benefit.

◆ Proven Success in the Field

We are increasing the value of our business partners through measurable successes achieved in Management Information Systems (MIS), Legal Communication Systems (LCS), Process Management, Archiving, Electronic Document Management Systems (EDMS), CRM, GIS, IoT, Digital Twin, and Enterprise Software projects in different regions of Turkey.

If you too want to deliver your solution to the public sector, municipalities, or water and sewerage authorities through a reliable platform, increase your sales volume, and participate in large projects, it's time to meet the ConnectiX team.

At ConnectiX, with over 25 years of field experience in technology projects focused on Local Governments, Water and Sewerage Administrations, Municipal Subsidiaries, and the Public Sector, we work as a reliable business partner in organizations' digital transformation journey.

Today, we are seeking new Business and Solution Partners to expand our strong solution ecosystem, bring together areas of expertise, and achieve sustainable success in larger projects.

**ConnectiX: "Together
we are shaping the
future."**
